NGUYEN HOANG LAM

AI MODEL DATA OPERATION GRADUATE

0382-346-577 | lyanmas.work@gmail.com | District 3, Ho Chi Minh City, Vietnam | github.com/LyanMas7

Expected graduation: Mar 2027 | Available for 2027 start

INDEPENDENT RESEARCH

EURO AREA SYSTEMIC RISK & REGIME-BASED ASSET ALLOCATION

Aug 2026 - Oct 2026

Python (pandas, scikit-learn), Excel

- Developed a reproducible evaluation and quality-control framework for a quantitative machine learning research project spanning 7 countries, 20 years of data, and 34 analytical outputs.
- Validated 6,300 regime-labeled observations, tracked and resolved 107 data and evaluation issues, and implemented 800+ automated checks to reconcile 420 model predictions and 34 evaluation outputs.
- Established 22 validation rules and a 24-item review checklist, documenting procedures for missing labels, single-class test sets, and temporally concentrated false positives across 10 research protocols.
- Identified substantial deterioration in out-of-sample model performance despite strong development results, evaluated more robust alternatives, and documented the findings using Python (pandas, scikit-learn) and Excel.
- Standardized an 11-step evaluation workflow with 16 review checkpoints and 66 documentation packages, connecting standards, review, and feedback into one reproducible process.
- Stress-tested 276 evaluation methods across 11,000+ trials and documented the results in versioned logs for audit-ready review.

PROFESSIONAL EXPERIENCE

EVERWEALTH ADVISORY LIMITED

Mar 2026 - Present

Trading Analyst — Ho Chi Minh City

- Developed and evaluated composite market-microstructure signals using order-flow imbalance, options skew, liquidation-risk estimates, and stablecoin liquidity; tested incremental predictive value and robustness across market conditions to strengthen evidence-based signal selection.
- Collaborated with the Risk Management team on 1-, 3-, 6-, and 12-month stress monitoring and hedging policies, supporting a reported 25% reduction in portfolio market-risk exposure.
- Co-managed a US$500,000 proprietary trading portfolio as part of a trading team, supporting capital allocation, position sizing, and portfolio-level risk monitoring; contributed to a reported 20% net trading return over four months.

YUANTA SECURITIES VIETNAM

Jun 2024 - Dec 2024

Equity Research Intern — District 1, Ho Chi Minh City

- Cross-checked financial data against company filings and market sources, helping reduce research-reporting errors by 30% while preparing Excel-based summaries for investment reviews.
- Analyzed three to five years of financial statements for Vietnamese listed companies, linking revenue growth, profitability, ROE, and leverage to P/E-P/B comparisons to support equity investment assessments.

HECO LAND REAL ESTATE JOINT STOCK COMPANY

Dec 2023 - May 2024

Market Research Intern — District 10, Ho Chi Minh City

- Organized listing and client-inquiry data in Excel for residential property research, comparing asking prices, locations, legal status, and property characteristics to assess market positioning.
- Maintained Excel-based records covering 20+ client inquiries and property listings, supporting organized follow-up and property matching across 150+ site visits and client consultations.

TECHNICAL SKILLS

Data Quality & Validation: Data-Quality Standards; Judgment Rules; Acceptance Criteria; Record Review; Discrepancy Detection; Error Categorization; Root-Cause Analysis

Model Evaluation & Analysis: Model Validation; Robustness Testing; Out-of-Sample Assessment; Error Analysis; Statistical Testing; Regime Analysis; CVaR & Risk Analysis

Tools: Microsoft Excel (Validation, Reconciliation, Summary Tables); SQL (Joins, CTEs, Window Functions); Python (pandas, scikit-learn; Data Checks; Model Evaluation)

Documentation & Quality Operations: SOPs; Review Checklists; Issue Logs; Prompt & Checklist Design; Reproducible Workflows; Audit-Ready Reporting

EDUCATION

UNIVERSITY OF ECONOMICS HO CHI MINH CITY (UEH)

Expected Mar 2027

Bachelor's Candidate in International Finance — **GPA: 3.52**

Relevant Coursework: Data Science (4.0); Financial Econometrics (4.0); Advanced Financial Econometrics (4.0); Risk Analysis and Modeling (4.0); Trading Strategy and Systems (4.0)

CERTIFICATIONS & LANGUAGES

Microsoft Office Specialist (MOS) 2019: May 2026

TOEIC - CEFR B2: Aug 2026

Languages: Vietnamese (Native); English (Working Proficiency)
